PROFESSIONAL SUMMARY

Senior Endpoint and VDI Escalation Engineer with 11+ years of experience delivering L3 escalation support across Windows and macOS endpoints, Citrix CVAD, VMware Horizon, and Azure Virtual Desktop environments. Proven ability to own complex incident resolution, design endpoint management strategies, automate remediation workflows using PowerShell, and lead root cause analysis. Experienced in FSLogix, PVS/MCS image management, Microsoft Intune, Active Directory, Azure AD/Entra ID, and ITSM-aligned patch lifecycle management. Track record of mentoring L1/L2 teams, building runbooks and knowledge bases, and driving continuous improvement to reduce repeat incidents.

TECHNICAL SKILLS

Operating Systems	Windows Server 2012–2022, Windows 7/11, macOS (support fundamentals)
VDI Platforms	Citrix CVAD (CLOUD/ LTSR), Azure Virtual Desktop (AVD)
Image Management	Provisioning Services (PVS), Machine Creation Services (MCS), FSLogix profile containers
Endpoint Management	Microsoft Intune, SCCM/MECM, application packaging, device configuration, (familiarity)
Identity & Access	Active Directory, Azure AD / Entra ID, Group Policy (GPO), Conditional Access, MFA, SAML, ADFS, RBAC
Scripting & Automation	PowerShell (advanced), Python (basic)
Monitoring & Tools	ControlUp, Zabbix, Wireshark, Event Viewer, Windows Performance Monitor
ITSM & Processes	ITIL v4, patch lifecycle management, RCA leadership, on-call / out-of-hours support, runbook authoring

CERTIFICATIONS

- Citrix Certified Professional – Virtualization (CCP-V)
- Microsoft Certified: Azure Administrator Associate
- ITIL v4 Foundation

PROFESSIONAL EXPERIENCE

IT Senior Consultant – Windows & OCI | Oracle India Pvt Ltd, Hyderabad, India | June 2022 – October 2025

- Acted as the senior escalation point for complex Windows and VDI incidents across a fleet of 5,000+ endpoints; performed deep-dive session tracing, profile forensics, and OS-level remediation, reducing mean time to resolution by approximately 30%.
- Designed and deployed PowerShell automation scripts for routine remediation and configuration tasks, cutting manual escalation effort by approximately 40%, and eliminating a class of recurring incidents.
- Managed AD and Azure AD/Entra ID integration including Conditional Access policies, MFA rollout, and device compliance baselines across hybrid-joined endpoints.
- Created escalation playbooks, runbooks, and KB articles adopted by all Tier 1 and Tier 2 engineers; delivered structured knowledge-transfer sessions reducing repeat escalations by 25%.
- Supported on-call and out-of-hours rotation, achieving SLA compliance of 98%+ for P1/P2 incidents over a 3-year tenure.

Associate Citrix SME L3 Escalation | Microland Ltd | April 2021 – June 2022

- Owned escalated Citrix CVAD incidents including catalogue and image health failures; resolved an average of 15 complex P1/P2 tickets per month with full RCA documentation.
- Led FSLogix profile container tuning for 2,000+ concurrent VDI users, reducing logon times by approximately 35% and eliminating profile corruption incidents.
- Managed PVS/MCS image versioning and maintenance cycles; authored deployment runbooks adopted as standard operating procedures across the CVAD environment.
- Guided storage-side and host-side troubleshooting for VDI performance incidents in collaboration with infrastructure and networking teams.

Senior System Administrator (VDI L3) | Wipro Technologies Pvt Ltd | June 2019 – April 2021

- Resolved L3 VDI performance incidents (HDX latency, slow logon, profile corruption) for a 3,500-seat Citrix environment through log correlation, SQL backend analysis, and configuration tuning.
- Implemented structured patching windows for VDI hosts and Citrix agent deployments; supported upgrade planning and rollback strategies with zero unplanned outages across 8 major release cycles.
- Produced post-incident RCA reports and systemic fix documentation, contributing to a 20% reduction in repeat VDI incidents quarter-over-quarter.

Citrix Administrator | PrimEra Medical Technologies Pvt Ltd | July 2016 – June 2019

- Managed Citrix CVAD 7.x LTSR environments including application packaging, PVS image lifecycle, and access policy coordination with Active Directory and networking teams.
- Supported endpoint configuration and software delivery workflows using endpoint management tooling for 800+ users across multiple sites.
- Collaborated with AD and network teams to design and enforce role-based access controls and GPO-driven endpoint security baselines.

Datacenter Operations – Server Virtualization | Wipro Infotech | July 2015 – July 2016

- Performed ESXi host maintenance, storage tuning, and controlled change execution for virtualised infrastructure underpinning VDI workloads; reduced user-impacting change events by 50%.

Windows Desktop Administrator | Angel Brooking Pvt Ltd | May 2014 – July 2015

- Provided L1/L2 support for 200+ endpoints; handled OS imaging, patch deployment, and escalations; consistently achieved first-contact resolution rate above 80%.

KEY ACHIEVEMENTS

- Reduced Incidents upto ~60% through by reconfiguration of the infrastructure and patching tasks at Oracle.
- Improved access gateway logon issue by migrating to latest version from 10.5 build 57.0 / VDI logon performance by ~35% via FSLogix container tuning for 2,000+ concurrent Citrix users at Microland.
- Maintained 98%+ SLA compliance for P1/P2 incidents across a 3-year on-call rotation at Oracle.
- Created standardized escalation of playbooks and knowledge base articles, which were adopted by all Tier 1/2 teams, resulting in a 25% reduction in repeat escalation volume.
- Delivered zero unplanned outages across 8 major VDI upgrades and patching cycles at Wipro Technologies.

EDUCATION

Bachelor of Technology (B.Tech), Computer Science and Engineering

Jawaharlal Nehru Technological University (JNTU), Hyderabad, India
