PROFESSIONAL SUMMARY

Customer-focused IT Support Engineer with 11+ years of experience providing hands-on and remote technical support across Windows desktop environments, endpoints, and enterprise applications. Proven track record delivering high-quality desktide and L3 support to large end-user communities, managing incidents within strict SLA frameworks, and maintaining strong relationships with executive-level stakeholders. Skilled in diagnosing and resolving hardware, software, and connectivity issues across Windows 10/11, Office 365, Microsoft Teams, and a broad range of desktop applications. Experienced in device setup, OS imaging, application installation, and user-facing IT service delivery. ITIL v4 certified with a disciplined approach to ticketing, documentation, and change management.

TECHNICAL SKILLS

Operating Systems	Windows 10, Windows 11, Windows Server 2012–2022, macOS (support fundamentals)
Desktop Applications	Microsoft Office 365 (Word, Excel, Outlook, PowerPoint, Teams), Edge, Chrome, Adobe Acrobat, Skype for Business, OneDrive
Endpoint Management	Microsoft Intune, SCCM/MECM, OS imaging, application packaging & deployment, device configuration, Jamf (familiarity)
Hardware & Devices	Desktop/laptop setup & configuration, printer installation & support, peripheral troubleshooting, defective parts replacement
Video Conferencing	Microsoft Teams Rooms, Skype for Business, video conferencing (VICO) system support and assembly
Identity & Access	Active Directory, Azure AD / Entra ID, Group Policy (GPO), Conditional Access, MFA, SAML, ADFS, RBAC
Scripting & Automation	PowerShell (advanced), Python (basic)
Monitoring & Tools	Control Up, Zabbix, Wireshark, Event Viewer, Windows Performance Monitor, diagnostic tooling
ITSM & Processes	ITIL v4, SLA/incident management, change management, ticketing systems, runbook authoring, asset management

CERTIFICATIONS

- ITIL v4 Foundation
- Microsoft Certified: Azure Administrator Associate
- Citrix Certified Professional – Virtualization (CCP-V)

PROFESSIONAL EXPERIENCE

IT Senior Consultant – Windows Endpoint & Executive Support | Oracle India Pvt Ltd, Hyderabad, India | June 2022 – October 2025

- Served as the primary escalation contact for complex Windows server/desktop incidents across 5,000+ end users including senior stakeholders; delivered hands-on and remote diagnosis, root cause analysis, and resolution within P1/P2 SLA targets, achieving 98%+ SLA compliance over 3 years.
- Managed device lifecycle including device configuration, OS deployment, application packaging via Intune and SCCM/MECM, and software delivery to end-user desktops and laptops.
- Maintained detailed and accurate incident records in ITSM ticketing systems; followed up with end users to confirm full resolution and ensure satisfaction before closing tickets.
- Collaborated cross-functionally with networking, security, and infrastructure teams to resolve complex issues; acted as the communication bridge between technical teams and non-technical end users.

- Created escalation playbooks, runbooks, and KB articles adopted by all Tier 1 and Tier 2 engineers; delivered structured knowledge-transfer sessions reducing repeat escalations by 25%.
- Coordinated and participated in planned changes, system updates, and equipment moves, ensuring minimal disruption to end users and accurate data transfer.

Associate Citrix SME – VDI Support Specialist | *Microland Ltd* | April 2021 – June 2022

- Delivered L3 technical support for desktop and virtual desktop incidents; diagnosed and resolved software, profile, and application issues for 2,000+ concurrent end users with full RCA documentation.
- Supported end users through logon failures, application crashes, and performance problems; reduced logon times by approximately 35% through targeted FSLogix profile container tuning.
- Managed PVS/MCS image versioning and application deployment cycles; authored deployment runbooks adopted as standard operating procedures across the environment.
- Communicated clearly and professionally with end users and internal teams throughout the support lifecycle, providing accurate progress updates and timely resolution feedback.

Senior System Administrator – Endpoint & Desktop Support (L3) | *Wipro Technologies Pvt Ltd* | June 2019 – April 2021

- Resolved complex desktop and VDI performance issues (slow logon, application errors, profile corruption) for 3,500 end users through structured log analysis and configuration tuning.
- Implemented and coordinated patching windows for desktop hosts and client agents; supported upgrade planning and rollback strategies with zero unplanned outages across 8 major release cycles.
- Prioritized and managed multiple concurrent open incidents within SLA, accurately logging all activities in the ticketing system and following up with users to confirm resolution.
- Produced post-incident RCA reports and systemic fix documentation, reducing repeat desktop incidents by 20% quarter-over-quarter.

IT Support Engineer – Endpoint & Application Support | *PrimEra Medical Technologies Pvt Ltd* | July 2016 – June 2019

- Provided end-user IT support for 800+ users across multiple sites including application packaging, software delivery, and device configuration using endpoint management tooling.
- Coordinated with AD and network teams to enforce access policies and GPO-driven security baselines; supported user onboarding including account setup, device provisioning, and application access.
- Maintain strong working relationships with end users and business stakeholders, delivering prompt and accurate communication throughout the support process.
- Installed, configured, and maintained desktop computers, laptops, and network printers across multiple sites; replaced defective hardware components including hard drives, RAM, and peripheral devices to minimise user downtime.

Datacenter & Desktop Operations – Infrastructure Support | *Wipro Infotech* | July 2015 – July 2016

- Performed controlled hardware maintenance and infrastructure changes for virtualized environments; reduced user-impacting incidents by 50% through disciplined change management.
- Supported equipment installation and configuration tasks including server and desktop hardware, ensuring minimal disruption to end users during planned maintenance windows.
- Installed and configured desktop workstations and network printers for datacenter and office environments; diagnosed and replaced faulty hardware components (HDDs, NICs, PSUs) as part of planned and reactive maintenance activities.

Windows Desktop Administrator – Deskside Support | *Angel Brooking Pvt Ltd* | May 2014 – July 2015

- Delivered hands-on deskside support for 200+ end users; performed OS imaging, laptop and desktop setup, printer installation, software deployment, and hardware troubleshooting.
- Diagnosed and resolved hardware faults across desktops, laptops, and printers; replaced defective components including hard drives, RAM, power supplies, and peripherals; performed printer maintenance (toner replacement, paper jam resolution, driver reinstallation, and network printer configuration) for 200+ users across the office.
- Consistently achieved first-contact resolution rate above 80%; maintained accurate incident logs in the ticketing system and followed up with all users after resolution.
- Provided clear and professional communication to end users at all technical levels, building trusted relationships and ensuring high satisfaction with IT support services.

KEY ACHIEVEMENTS

- Maintained 98%+ SLA compliance for P1/P2 incidents across a 3-year on-call rotation supporting 5,000+ end users at Oracle.
- Improved end-user desktop logon performance by ~35% through FSLogix profile optimization for 2,000+ concurrent users at Microland.
- Reduced repeat escalations by 25% by standardizing playbooks and KB articles adopted across all Tier 1/2 support teams.
- Delivered zero unplanned outages across 8 major upgrades and patching cycles at Wipro Technologies.
- Achieved first-contact resolution rate above 80% in desktide support role at Angel Brooking, supporting 200+ endpoints hands-on.
